David J. Roll

8/1/2016

I know there are skeptics about God and His very presence and there are those who completely believe. Well, I am a faithful witness to the recent demonstration of the power and presence of God, just this last Monday afternoon. I was sitting in my office when suddenly I heard a distressed-sounding yell followed by a loud thump against one of my walls. I said, "That doesn't sound good!" and left the office to determine the source of the noise. As I rounded the corner, I saw a pair of legs shaking violently.

As I moved further around the corner I saw a worker whom I did not know in the throes of convulsions as I had never seen in my life. The secretary was bent over him and talking softly to him as he continued to writhe on the floor foaming at the mouth and spitting. I had never seen anything like it wondering what to do. Suddenly a thought, "Pray!" Immediately, as I watched the man, I whispered, "God! Help him in Jesus' Name!" Within no greater than five seconds the man relaxed - the seizure was over! Within five to seven minutes the man was up talking and went to sit in a chair and wait for the EMT to arrive, which I had called.

God demonstrated the power of His Holy Spirit in Jesus' Name! As I prayed I sensed the very real presence of the Spirit of God. God IS real and He DOES hear and answer prayer! None of what I saw was me; it was Him! Praise God with me!
