Nation Under Darkness

David J Roll

Four years ago, the Lord gave me a night vision. Night was upon the United States as I looked down upon it. The nation was broken in half in a nearly straight line from approximately Louisiana to the Canadian border. There were no other countries seen around it. The Eastern part of the U.S. was tilted downward approximately 10-15 degrees and water was creeping upward submerging the tilted half.

Although modern day prophecy is about forth-telling, identifying what is currently unknown or unseen, there is also fore-telling; that is, what will happen, and the meaning of prophecy is unfolded as time marches onward.

One purpose of God-inspired prophecy is for correction of the course people are on in order to point people back to Him. For we who have children, have we ever lovingly told them, for example, "Stop doing what you are doing!" and then tell them what see will happen if they do not change their ways? Of course! God does the same thing by identifying to us WHERE we are and what to do about it.

So, what is the meaning of this dream?

Obviously the nation is broken in half, which is current status, and led by wicked kings, presidents.

The time of day was night, midnight; darkness is upon the entire U.S. Darkness of soul, society, spirituality, morality and so forth.
Prayers in school are forbidden; children are being slaughtered.

The root of the darkness is the turning away from God. Immoral decay has set in and the only way out is to return to God. The nation is backslidden, yet the merciful God will heal backsliding when we return to Him. The nation was a cup-bearer of God and a light to the world of God's grace and mercy, but has turned to other gods and the cup-bearer is not worthy to hold the cup of God; therefore, because of apostasy, the light is gone out.

No countries were seen around it as in seeing a global perspective of a continent. The nation was alone. When a people are in the midnight of their lives and there is no where to turn, where do they turn? The only way to get out of the darkness is to turn to the light, the Light of God, Jesus.

So great is the darkness there is a large faction of people who willing to elect a known wicked woman to the nation's presidency, a Jezebel, to lead them.

Waters were creeping upward over the broken half. Water denote people. What are the waters? Immigrants.

The nation must awake and see their condition before God! To be sure, there are Christians praying earnestly for these United States and are praying for revival in our land. They are praying for the unchurched, ungodly, every sinner, murderer, fornicator, abuser of themselves with mankind, thief, liar, they are praying for this nation. They are not praying for their four and no more.

The Spirit of God is calling . . .
