

Prophecies and Visions

THE SERPENT

Vision – I was in a sparsely wooded area. Some paths were seen amidst smatterings of medium tall brown field grass. I looked upon the ground and saw a serpent with skin of Yellow mottled with brown patches. I reached down and picked up the serpent just behind its head. I held up the serpent. For some reason, I was distracted and let go the serpent. The serpent began to slowly slither away. I thought, “I must get the serpent.” I followed the serpent and looked for a way to get ahead of it. My thoughts were to get ahead, grab it behind the head and kill it. I thought if I caught the serpent by the tail it would reach backward and bite me. The serpent seemed to know what I was thinking because although I followed slowly it began to move faster. I walked a little more quickly. Suddenly, the serpent made a sharp right turn moving much faster. Then the serpent seemed to be lifted and seemed to virtually fly as it touched its head and then the tail multiple time as a straight stick on the ground. The serpent disappeared from view.

INTERPRETATION - Jesus said we would take up serpents and nothing by any means would hurt us. I had picked up the serpent but was distracted and let go the serpent. When we pick up a serpent, in the spirit, we are not to let it go, but deal with it to render it useless and powerless. If serpents are not effectively dealt with they will return. In my case, the serpent was unsuspecting but became aware and fearful because of the Spirit within me. The Word is true, “Greater is He that is in us than he that is in the world.”
