Get in The Trenches

Christians, you had better be on your knees engaged in spiritual warfare concerning not only the upcoming presidential election, but the debates themselves. We do not fight flesh and blood! Do not wait for failure as the opportunity to pray; you could be dead. Be aggressive! Pray offensive prayers! The enemy seeks to thwart your prayer time and your prayers. Why? Because prayer works. Ask the Holy Spirit for direction for what to pray for and then open your mouth and pray; the Lord will fill it.

Better get in the trenches and fervently pray for revival in this land. When will revival hit? When Christians get on their knees, confess their sin and repent. Judgement shall come first to the house of God.
