Something from Nothing

Hebrews 11:3 states, "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear."

Wow! In full light of this scripture, One morning my wife and I were sitting outside looking up at a cloudless sky. We had discussed this scripture at an earlier time. As we looked, seemingly suddenly, a cloud appeared, and then it disappeared! We cannot see the elements God set in place to make clouds, but, again, we watched as a cloud appeared from what we did not see. Cool, eh? I love practical examples of God's Word.
